

TRANE XB13c PACKAGED HEAT PUMP

Your Profit-ability

Sell-ability

- ≡ Industry leader; solid brand reputation
- ≡ Clean, sleek lines; attractively updated design
- ≡ Great reliability and durability
- ≡ Quiet operation
- ≡ Choice of refrigerants, R-22 or R410A
- ≡ All-steel cabinet with appliance-grade finish

Install-ability

- ≡ Residential or commercial
- ≡ Easily converted for horizontal or vertical applications
- ≡ Factory built 12" and 18" duct covers for extra-clean, horizontal installation
- ≡ Panhead screws on supply and return panel for flush-fit duct connections

Service-ability

- ≡ Easy access to compressor, blower and controls
- ≡ Liquid-line port in compressor compartment
- ≡ Drain pan is extra deep and steeply sloped to ensure drainage

Performance-ability

- ≡ Durable weather-beater top easily sheds water
- ≡ All-aluminum Spine Fin™ coil for long-lasting performance
- ≡ Energy-saving Vortica™ blower provides stronger airflow – quietly

Rely-ability

- ≡ Climatuff® compressor
- ≡ Weatherguard™ corrosion-resistant fasteners
- ≡ Extra-rigid, foil-faced insulation for cleaner, longer performance
- ≡ Demand Defrost provides maximum-length heat pump cycles and minimizes defrost interruptions for longer compressor life and better comfort in the home

It's Hard To Stop A Trane.®

TRANE LIMITED WARRANTY
5-year compressor and coil
5-year functional parts

A COMPETITIVE CHOICE FOR YEAR-ROUND CUSTOMER COMFORT.

The TRANE XB13c packaged heat pump delivers **consistent comfort** indoors. Internal components such as Trane's exclusive **all-aluminum Spine Fin™ coil** and advanced **Vortica™ blower** are engineered for **lasting performance**, while the clean, straightforward design of the powder-painted steel cabinet blends seamlessly with any architectural style. The XB13c boasts many of the same key features as our top-

of-the-line models, but at a price point that appeals to a broader range of customers – those who appreciate both the **reliable comfort** and **competitive pricing** that the XB13c has to offer. And because the XB13c meets or exceeds all federal efficiency requirements, you can be confident about selling your customers on the benefit of consistent savings on their energy bills over time.

Quiet operation

Features like our advanced Vortica™ blower and Climatuff® compressor keep sound levels down.

Reliable performance

Precision engineering, design innovation and rigorous testing offer reliable, long-lasting performance and durability.

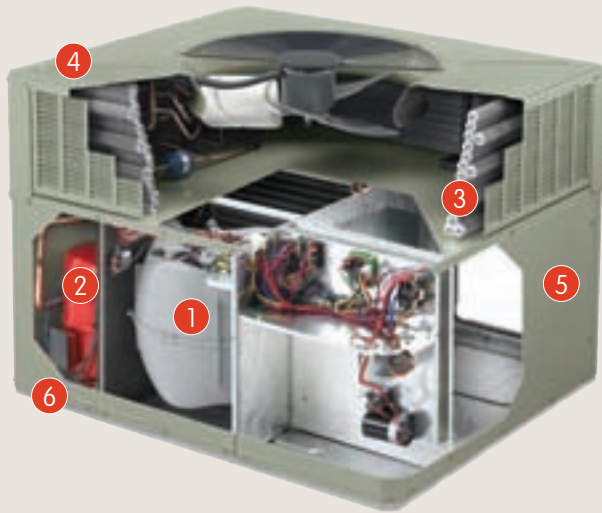

Contemporary updated design

The sleek styling of the XB13c complements any home exterior.

Comfort control

Give your customers better comfort control with a Trane digital or programmable thermostat.

TRANE XB13c PACKAGED HEAT PUMP

Features and components may vary by model and are shown for illustration purposes only.

1 Composite Vortica™ blower

Advanced system uses less energy to produce more airflow with minimal sound. Slides out for easy service.

2 Climatuff® compressor

The standard for reliable operation. Delivers superior durability, cost-saving efficiency and quiet operation.

3 All-aluminum Spine Fin™ coils

Thousands of tiny aluminum fins provide a larger surface area, resulting in enhanced airflow and heat transfer. Less likely to clog or corrode than traditional copper/aluminum coils – even under the harshest conditions.

4 Durable weather-beater top

Contoured and reinforced to shrug off the elements year after year.

5 Appliance-grade finish

All-steel cabinet with baked-on powder paint for smooth, safe edges and years of protection.

6 Embossed service panels

Allow easy access to compressor, blower and controls.

7 Optional electric heater kits

A full range of electric heaters available for all models. (not shown)
